COUNCIL MEETS AS AN EQUALIZATION BOARD

WILL HEAR COMPLAINTS ON PERSONAL TAX ASSESSMENT.

Chairman McNally, of Finance Committee, Says No Material Increase Contemplated.

Council will sit tonight as an equalization board on the personal tax roll and if the work of hearing complaints and making adjustments is completed the roll will be placed before the regular meeting of council Tuesday night for adoption.

Mr. McNally stated this morning that it had been the custom to assess automobiles at about fifty per cent, of their valuation. For instance Cadillac cars are assessed at \$1,000, although there are some on the books assessed at \$200. Mr. McNally said that he would not venture a guess at the amount of increase there would be in the personal tax roll, but did not believe it would be any larger than increases fixed in former years.

The regular meeting of council will have many important matters before it Tuesday night. The old waterworks company has made an offer of a price at which it will dispose of its plant, here, but so far this price has not been made public. It is understood, on good authority that the price fixed by the waterworks owners was \$200,000. The question now is not so much whether or not the plant is worth that, by actual appraisal, as whether or not it is worth that much to the city. Another problem which will face council, if it continues to ponder over the matter without putting it up to a vote of the people, is whether or not any appraisal board would agree that the price asked by the owners is a fair and just one.

According to Chairman McNally, of the special water works committee, the provision for naming an arbitration committee to fix the valuation of the plant, is not contained in the charter, but was fixed by ordinance and if council so desires this ordinance can be repealed and the plant purchased at whatever price is agreed upon. In this event it is highly probable that a bond issue, without a valuation by experts, would fail to carry and Palatka would be in the same position, as regards two water systems, as it is now.

SUGAR SHIPMENT A HOAX.

Jacksonville Never Had a Chance to Get 10,000,000 Pounds.

JACKSONVILLE, Nov. 14—The wonderful 10,000,000 pounds of sugar on which the people of this city have been building their hopes failed to materialize. The expected shipment had been well advertised through the State, and if the Jacksonville firms had been able to fill the orders received from outside, there would have been nothing left for the home folks anyway. Telegrams and letters from every part of Florida poured in here making requests for a portion of that big sugar supply, which never made its appearance. The Cuban dealers from whom the purchase was to be made found out that their sugar was in great demand, and they withdrew from the market, selling elsewhere. Their new prices, it seems, are much higher than that at which the first option on 10,000,000 pounds was accepted.

STILL SUING HULLY

Case Against President of Stetson to Be Tried in Orange

Announcement is made that the damage suit instituted by Helen Hunt, a former student at Stetson University, against President Lincoln Hulley, has been transferred from Volusia county to Orange county.

Judge Perkins is disqualified in the suit and application for change of venue was argued some time ago. Alleged slanderous remarks are the basis of the suit, which dates back several years.

NO WORD FROM GOVERNOR
No Date Yet Set For Execution of Nat Richardson.

No word has yet been received from Governor Catts indicating his disposition as to date for the execution of Nat Richardson, the convicted slayer of Conductor Ray Butts, according to Sheriff Hagan.

The execution of Richardson will not be public, only the necessary officials and court attaches being allowed inside the enclosure where the execution will take place. The sheriff does not anticipate any untoward events, but is prepared for any eventuality.

AMUSEMENTS.

SUMPTUOUS DeMILLE FEATURE AT ARCADE.

It is probable that those who talk learnedly of "art" on the screen, are not always exactly sure of their meaning. But no one, even the least conscious of what constitutes art, could fail to recognize something far beyond the ordinary in motion pictures in "Don't Change Your Husband" at the Arcade Theater tonight. It is an Artcraft special picture produced by Cecil B. DeMille, which is in itself a guarantee of high quality. But even Mr. DeMille has outdone himself in this story which, for sheer beauty, novelty and artistry has been unequalled in the annals of the screen.

The story is a new version of the familiar triangle—a lovely and romantic young wife, a husband immersed in business and neglected of his wife and a debonnaire, sleek and highly clever young architect. The wife leaves her husband under the spell of the newcomer's romantic promises and lives to repent and go back again to the man who was foolish enough to put business before everything else, but who, meantime, has reformed and become as immaculate as his ex-rival.

This is the bare outline—the delightful qualities are in the touches of beauty, oriental mysticism, charm of character and in every phase of the production.

BOOST FOR SHIP CANAL.

Deeper Waterways Association Favors On Across Florida.

CHARLESTON, Nov. 14—The Atlantic Deeper Waterways Association, in annual convention here, today endorsed the project of the South Florida Canal Association for a ship canal across the southern peninsula of Florida from some point on the east coast probably the St. Lucie Inlet, to the gulf, by way of Lake Okeechobee and the Caloosahatchee river to Fort Myers. The request for endorsement was made by a delegation of Floridians who were delegated by the Florida organization.
